Visual fields of four batoid fishes: a comparative study

The goal of this study was to quantify the horizontal and vertical visual fields of four batoid species We asked three primary questions: (1) how do visual fields differ among species that possess different head morphology and eye position, (2) how do their visual fields correlate with their behavioral ecology and (3)

Definition and Classification of a Visual Field Summary

Part 1 is a surveillance study of visual field functions specifically examining the continuous change of function from the central visual field to the peripheral visual field
 In Part 2, the diagrams of visual fields from some previous studies are introduced
 Part 3 is a cross-sectional review of the study of the visual field, describing factors affecting the visual field size and presenting

Interpreting Visual Fields - Glaucoma Today

Interpreting Visual Fields Advice on using staging systems to make informed treatment decisions
 BY JEFFREY D HENDERER, MD
 Much recent excellent work has focused upon the optic nerve and nerve fiber layer
 Although a careful analysis of the nerve will provide valuable information about a patient's disease, it may not provide the physician with

perimetry is the standard for measuring visual fields
 A method of assessing whether a patient's visual fields render them fit to drive, and which is based on this standard method of clinical testing, would be a practical solution since it would not involve any extra testing beyond that routinely done for diagnostic and monitoring purposes
